

SUMMARY

AI Consultant with 5+ years of experience in Data & AI Analytics, specializing in building scalable, cloud-based AI solutions. Proficient in Python and SQL, with hands-on expertise in Tableau and Google Cloud Platform (GCP). Experienced in developing GenAI-powered applications, including RAG-based conversational chatbots and IVR systems, achieving a 53% containment rate. Strong background in collaborating with stakeholders to solve complex telecom domain challenges. Passionate about leveraging Generative AI and LLMs to drive real-time, business-critical impact.

WORK EXPERIENCE

Accenture Solutions Pvt. Ltd., AI Decision Science Consultant	June 2021-Present
Stride.ai, Software Developer 1	Jan 2021-May 2021
Stride.ai, Software Developer Intern	Oct 2020-Dec 2020
Bizzsense Solutions Pvt. Ltd., Software Developer Intern	June 2019-Dec 2019

EDUCATION

Indian Institute of Information Technology, Nagpur, Bachelor of Technology	2016-2020
New Arts, Science, and Commerce College, Wardha, HSC	2014-2016
Aragami Convent School, Wardha SSC	2012-2014

KEY PROJECTS

Generative AI-Powered Conversational Support and IVR Modernization

- Designed and implemented a **generative AI-driven Dialogflow CX** playbook for Oliver Chatbot, improving containment by **50% (30% to 45%)** and setting a new benchmark for self-service automation.
- Developed robust prompt engineering and intent orchestration strategies to handle diverse user queries with high accuracy and contextual relevance.
- Built and integrated a retrieval-based architecture using KM webhooks, grounding responses in FAQs and product knowledge to ensure factual correctness and reduce hallucinations.
- Defined the end-to-end conversational architecture, including flow design, fallback strategies, and escalation handling for seamless user experience
- Built an automated testing framework for conversational bots, reducing manual testing efforts by **75%** and accelerating release cycles with zero escalation.
- Supported the launch of a **Conversational IVR** that achieved **53%** containment, the highest on record, delivering the most significant IVR enhancement in over a decade.

Transformation as a Service - Value Realization Office

- Designed KPI dashboards that became the **standard decision-making tool for leadership across 3 business verticals**, reducing manual reporting efforts by **90%**.
- Partnered with senior stakeholders to **align product metrics with business goals**, contributing to a transformation that delivered **£8M in business value (FY 2024-25)**.
- Collaborated with engineering and business teams to define requirements, prioritize features, and track adoption metrics.

SMB Identification and Segmentation

- Partnered with sales and marketing teams to devise a segmentation strategy for small and medium-sized businesses (SMBs).
- Integrated third-party data with client data to enhance analytical insights and decision-making.
- Engineered use case-specific features, significantly optimizing ML model performance.
- Implemented clustering algorithms to categorize SMB customers according to behavior, needs, and demographics.
- Developed a prioritization model that pinpointed high-potential SMB segments, driving a 20% increase in SMB sales.

SKILLS

Languages	Python, SQL, JavaScript, PySpark, HTML, CSS
Frameworks	Scikit-learn, Keras, Numpy, Pandas, Matplotlib, Seaborn
GenAI	NLP, LangChain, RAG, Prompt Engineering, LLM
Tools	Tableau, GitHub, Jira, Streamlit, Google Cloud, Dialogflow CX, FastAPI
Soft Skills	Analytical & Problem Solving, Data Storytelling, Collaboration and Communication, Leadership
Additional Skills	Telecom Domain Expertise, Agile Development, Product Thinking

CERTIFICATION

Product Management Certification from ISB Executive Education

Data Analysis Using Excel - Rice Business University

Data Analysis Using Python - IBM

Python for Data Science - IBM

ACTIVITIES

Star Performer Award

2023,2025

Tenacious Techno Award

2022
